

Create A Soundscape!

Year 3-4

Soundscapes are when we use sound and music to create the atmosphere of a story being told. These sounds can be background noises, sound effects, or musical instruments that sounds like what is happening (e.g. using a maraca to sound like rain). Watch the following video to see a very simple soundscape created by Music Viva in Schools.

- Create a Live Soundscape to a Story - Mr McGee - <https://vimeo.com/360684227>

Some people who create sounds effects are 'Foley artists'. A **Foley artist** is a person who creates sounds for film, video, and other media such as radio dramas during or after production to enhance audio quality. They replace or create sounds that cannot properly be recorded on set. These sounds include anything from the swishing of clothing, the breaking of glass, footsteps, or squeaking doors.

Create a soundscape for the book 'We're Going on a Bear Hunt!'

This book has spoken sounds for when they go through different areas. Watch and listen to how he tells the story, how he almost sings it, and how the story has a rhythm.

- Michael Rosen performs 'We're Going on a Bear Hunt' - <https://www.youtube.com/watch?v=0gyI6ykDwds>

You must experiment with and use items around the house to create sound effects, like Foley artists, to soundscape your story.

Write down your soundscape cues in brackets next to the right text, describing how to make the sound. Here's an example of what to do:

"Oh no! We have to go through it!

Splash splosh! Splash splosh! Splash splosh!" (*Splashing water in a bucket with hands*)

Now read the story while you make the sound effects and record it!

EXTRA: Fill out the worksheet about the Soundscape inside your own home!
